**5 Steps Before
Puppy's First
Obedient Class!**

BECKY'S
PET CARE INC.

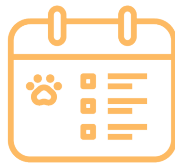

5 Steps Before Puppy's First Obedient Class!

1

Take your dog to the veterinarian to make sure that they are properly vaccinated and healthy. Depending on the class, you may have to submit a copy of your pet's records.

2

Sign up for a class! The right training program depends on the age of your pet.

3

Gather some essential supplies your pet may need for class like a favorite toy, a retractable leash, a clicker, some of their favorite treats, and a dog collar with the required information to ID your pup.

4

Restrict the size of your pet's meal before class. This increases their food drive while around group distractions and makes treats more meaningful!

5

Lightly exercise your pet before class- but don't over work them! This takes the edge off your pet and gives them a chance to go potty.
